ITB 2025-004

Road and Curb Drainage Repairs

Ishri Sankar, PE
Public Works Director

May 27, 2025

Background

The Department of Public Works has identified 3 locations in which the curb and asphalt has settled to the point in which stormwater is held for prolonged period of times. Since these locations are all within residential neighborhoods or low volume commercial areas, they become a hazard for mosquitoes in the summer months, and ice puddles in the winter. Additionally, the standing water deteriorates the asphalt and curb sub-base.

To resolve these, the City proposes raising the curb line and installing pavement to spill water into the nearest storm drain inlet.

Locations

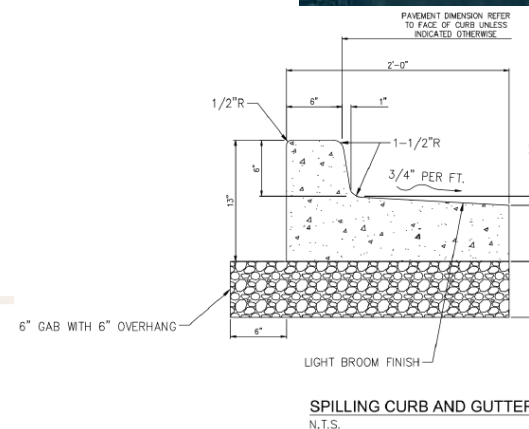

- 2109 LaVista Executive Park Drive
- 2115 Carthage Road
- 5953 Stillwater Court

2109 LaVista Executive Park Drive

Solution

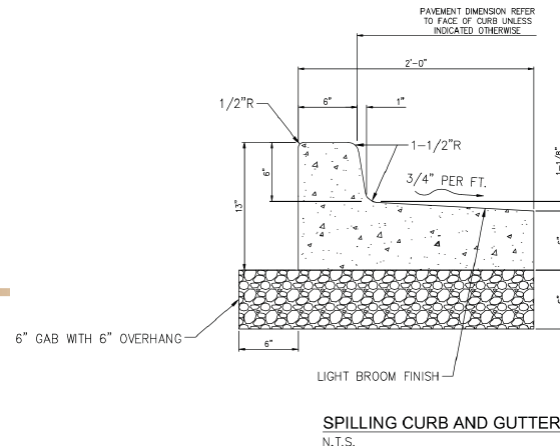

- Remove curb and gutter
- Replace curb and gutter up to 9 inches higher than existing with spill curb
- Reinstall asphalt to match, grade to drain

2115 Carthage Road

Solution

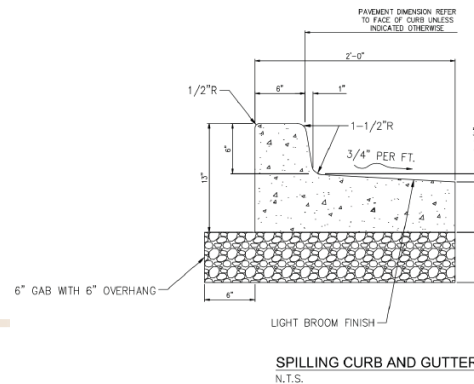

- Remove existing curb and gutter
- Replace curb and gutter up to 7 inches higher than existing with spill curb
- Reinstall asphalt to match, grade to drain

5953 Stillwater Court

Solution

- Remove existing curb and gutter
- Replace curb and gutter up to 6 inches higher than existing with spill curb
- Reinstall asphalt to match, grade to drain
